

FELLOWES Helios 30

Thermal Binder

Office Thermal Binder - For Frequent Use

- Audio and visual indicators clearly signal when ready to bind
- HeatShield safety barrier prevents accidental user contact with the heating plate.
- Document size guide enables user to easily select correct binding cycle
- Automatically shuts off when not in use to reduce energy consumption
- Binds multiple documents up to a combined size of 30mm or 300 sheets
- Folds flat for storage

Unique features

SPECIFICATIONS

Model Name	Binding Capacity	Combined Thickness	Warm-Up Time	Variable Heat Cycle	Multiple Binding
Helios 30	300 sheets	30mm	4mins	Yes	Yes

Quality Office Products Since 1917

FELLOWES Helios 30

Unique Features

Audio and visual indicators

Vertical sheet loading and folds flat for storage

Safety barrier prevents user contact with the heating plate. The barrier is opened manually and closes automatically

Automatically shuts down during periods of inactivity to reduce energy consumption

How does the Helios 30 work...

- 1 The document scale enables users to measure the documents thickness and calculate the correct binding cycle.
- 2 The binding clamp slides open, enabling the documents to be loaded into the binder. The documents should touch the heater plate with the clamp supporting the documents during the binding cycle.
- 3 The binding clamp includes the HeatShield feature, a safety barrier to prevent users touching the heated plate during the binding cycle.
- 4 The user can see the progress of the binding cycle and is alerted when the cycle is complete.
